

Effective Fall 2016 semester, Satisfactory Academic Progress in the Nursing program should read:

## SATISFACTORY ACADEMIC PROGRESS IN THE NURSING PROGRAM

### Theory /Lecture Course Grading System:

Students are responsible for reading each course syllabus to apprise themselves of the particular objectives and grading system for each course. While the overall course grade may consist of exam points combined with other course assignment points and/or extra credit points, the average of the designated course exam scores must be at least 80% before other scores are added to determine the final grade for the course. This 80% average will be calculated by averaging the scores for all four course exams.

Failure to obtain an 80% average for the four course exams will result in course failure regardless of the number of points earned for other course activities.

**Students must maintain a GPA of 2.75 or greater** to progress through the nursing program and be eligible for graduation.

You must receive a B or better in science courses, to proceed in the nursing program. Students must achieve a grade of B or better in all nursing courses. Failure to do so will result in repeating the course. Students will only be allowed to drop the same course twice. If a student fails to maintain a grade of B or better in any nursing course and sciences, the course may be repeated only once. A second failure in the same course will result in termination from the Nursing Program. Any student failing more than two nursing courses will be dismissed from the program.

Each nursing course is composed of several components including theory, lab, and clinical. **If a student fails a component of the course, they MUST REPEAT ALL COMPONENTS of the course, including clinical rotation.**

Inability to meet college and program requirements, including all academic requirements, will result in dismissal from the Nursing program.
