## DRUG TESTING SIGN-OFF FORM FOR DRIVERS WITH CDL LICENSE

Each CDL driver, as a condition of employment, will be required to participate in pre-duty, post-accident and random testing upon selection or at the request of management. The substances that will be tested for are: Amphetamines, Cannabinoids (THC), Cocaine, Opiates and Phencyclidine (PCP). Testing for the presence of the metabolites of drugs will be conducted by the analysis of urine. All drug-testing information will be maintained in separate confidential records.

To ensure the accuracy and fairness of our drug-testing program, all testing will be conducted according to DOT guidelines where applicable and will include (1) a screening test; and (2) a review by a Medical Review Officer, including the opportunity for employees who test positive to provide a legitimate medical explanation, such as a physician's prescription, for the positive result.

Any driver who tests positive will be terminated immediately. A driver will be subject to the same disciplinary consequences of a positive test if he/she refuses the screening or the test.
