ASA College (ASA) is committed to providing a safe environment for both students and employees. Sexual Misconduct can be psychologically and physically traumatic and is most certainly a violation of one's rights. There are on-campus and community resources available to help students and employees.

Students and/or employees who have experienced Sexual Misconduct are referred to as "*complainants*." Students and/or employees who are accused of Sexual Misconduct are referred to as "*respondents*." This document provides resources and information for both complainants and respondents. This Resource Packet should be read in the context of ASA's Sexual Misconduct Policy (the "Policy") available at <http://www.asa.edu/title-ix.asp>.

Reasonable and appropriate supportive measures and accommodations are available for complainants and respondents regardless of whether an investigation under the applicable procedures is pursued.

I. EMERGENCY MEDICAL ASSISTANCE PROVIDERS, LAW ENFORCEMENT, CAMPUS AUTHORITIES, AND CRISIS RESPONSE RESOURCES

A. MEDICAL ASSISTANCE

ASA encourages individuals to seek medical attention following an incident of sexual assault. Complainants are also encouraged to obtain help from a professional counselor, who can provide information and advice about available medical options. Local medical providers can provide emergency and follow-up medical services to address physical well-being or health concerns and conduct forensic sexual assault examinations.

A medical exam obtained from a hospital or a sexual assault response center serves two purposes: first, to diagnose and treat the full extent of an injury or physical effect (sexually transmitted infection (STI) or possibility of pregnancy) and second, to properly collect and preserve evidence. The exam may include testing and prophylactic treatment for HIV/AIDS, STIs, and pregnancy, a vaginal/anal examination, etc.

There is a limited window of time (typically 72-96 hours) following an incident of sexual assault to preserve physical and other forms of evidence. Taking the steps to gather evidence immediately does not commit an individual to any course of action. The decision to seek medical attention and gather any evidence will preserve the full range of options to seek resolution through ASA's complaint processes or criminal action.

II. EDUCATION AND PREVENTION EFFORTS AT ASA COLLEGE

ASA College has partnered with EVERFI, a provider of digital learning. EVERFI helps colleges solve troubling issues faced on campuses across the country. Through online prevention education and compliance training, data insights and performance benchmarking, EVERFI delivers training solutions directed at college safety for students and employees including modules in Title IX compliance, Alcohol Awareness and Prevention, and Sexual Assault Prevention.

In addition to EVERFI courses, ASA provides training sessions sponsored by Wyckoff Hospital and through special educational opportunities administered by ASA’s Counsel, Human Resources, the Title IX Coordinators, and the Office of the Ombudsperson.

Further prevention information can be found in the “**ASA College Sexual Misconduct Safety Tips Brochure**” available at <http://www.asa.edu/title-IX.asp>.
